

Hello, children!

My name is Max and I live with my owner Miha near Celovška cesta.

You know, it's very noisy here. Sometimes when I want a little afternoon rest, I can't even take a nap, as the sound of cars is constantly heard, occasionally even of the train. I noticed that the noise bothers Miha as well, as he can't concentrate at all while writing homework or reading a book. If I go to the kitchen, where the window overlooks the block playground, older children often gather there in the afternoon, with a loud portable speaker, chatting and passing the ball to each other non-stop.

Really annoying! No peace!

On Sunday, I decided to retreat to somewhere more peaceful. When Miha's mom opened the apartment door, I quickly whizzed out.

Do you have any idea where I went?

I'll give you some tips to help you find me. I have also prepared a map for you. However, in order for the task not to be too easy, you will find locations along the way where different tasks await you. If you solve them correctly, you will end up with a reward.

My friends from the *CitieS-Helath* team will explain the instructions to you.

Max
