

Survey to evaluate the impacts of the CiteS-Health project - Barcelona

This survey has been created by the CiteS-Health scientific team together with citizens to evaluate the impacts of the project. Your responses to this survey will help us identify the positive and negative effects that the CiteS-Health project has had on citizens and the community. Finally, the answers will help us to improve future scientific projects with citizens. It should take 10-15 minutes to complete. We really appreciate your time!

I know and accept the privacy and data protection conditions.

1. During the CiteS-Health project, in which of the following activities have you participated? **to be adapted with the list of activities developed in your project**

- Identification and / or voting of the research question
- Measurement of air quality through strawberry plants
- Experiment design workshop
- Workshop on governance and decision-making
- Data collection through the app and / or the Kit
- Data analysis workshop
- Results and action workshop
- Creation of the survey to evaluate the impacts of the project
- None of the above
- I don't know, I don't remember

2. Before participating in the CiteS-Health project in Barcelona, did you have any experience with citizen science projects?

- Yes
- No

If you answered "Yes" to the last question, can you tell us what the project was called and / or what your task was?

3. How did you first hear about the CiteS-Health project? More than one answer is acceptable.

- Through social networks (Twitter, Facebook, LinkedIn)
- Daily newspapers

- TV
- Word of mouth
- Through the official website of ISGlobal or Ideas for Change

4. Did the project or activities you participated in meet your expectations?

- Yes, all my expectations were met.
- Not all my expectations were met.
- No, none of my expectations were met.

If you answered no to the last question, could you tell us which of your expectations have not been met?

**5. Indicate your level of agreement or disagreement with the following statement:
"During the activities in which I participated, the scientific team gave enough space for discussion and response to questions from citizens."**

- Strongly disagree
- Disagree
- Neutral
- Agree
- Totally agree

6. On a scale of 1 to 5 (1 = Very low, 5 = Very high), how would you rate the following?

	1	2	3	4	5
Your level of participation in this project					
Your level of satisfaction with the project					

7. On a scale of 1 to 5 (1 = Not at all, 5 = A lot), how would you rate the increase in the following aspects after participating in the project?

	1	2	3	4	5
Your knowledge of the scientific research process					
Your confidence in scientific research					
Your interest in the relationship between air pollution and mental health					

Your understanding of the relationship between air pollution and mental health					
Your confidence to interact with professional scientific researchers					
Your dedication to becoming more involved in Barcelona's air pollution policies, sustainable urban planning and public health					

8. In your opinion, on a scale from 1 (not at all) to 5 (maximum), rate the extent to which ...

	1	2	3	4	5
The results of the project will contribute to the improvement of local conditions with regard to air pollution and mental health in Barcelona					
The results of the project will affect political decisions on air pollution and / or mental health in Barcelona					
The results of the project will be relevant to clarify the relationship between air pollution and mental health (attention, stress, mood and quality of sleep).					

9. In relation to your participation in the project, do you feel that it had a positive impact on your community (social, cultural, political)? Please rate your response on a scale from 1 (Not at all) to 5 (A lot).

10. With regard to the following aspects, do you think that your participation in the project has provided you with information and knowledge that may be useful to you in the future? Rate each on a scale of 1 (none) to 5 (A lot)

	1	2	3	4	5
Collaborate with other people (professional researchers, civic organizations, policy makers, etc.) on issues related to health and the environment.					
Formulate a research question					
Develop a research protocol					
Collect information and data					
Interpret the results of the research					
Take into account the uncertainty in research and communication					

11. In relation to the local situation on air pollution and health, how would you describe your position / situation?

- I realized the possible problems related to this topic when I found out about the project.

- He knew the possible problems related to this topic even before he knew about the project.
- I have been active in this topic (for example ... requesting research, signing petitions, participating in local initiatives / associations, ...)
- Other

If you answered "Other" in the last question, can you tell us which one?

12. Are you a member of an association related to environmental and / or health problems?

- Yes, at a local level
- Yes, at a national or international level
- No

13. What gender do you most identify with?

- Woman
- Man
- Other

14. What year were you born?

15. How long have you lived in Barcelona?

- Less than 5 years
- From 5 to 10 years
- More than 10 years
- Since I was born
- I don't live in Barcelona

16. In which district of Barcelona do you live?

- Eixample
- Gràcia
- Sant Martí
- Sants-Montjuïc
- Ciutat vella
- Horta-Guinardó
- Sarrià Sant-Gervasi
- Sant Andreu
- Nou Barris
- Les Corts
- I don't live in Barcelona

17. Do you consider that you are part of a marginalized group, that is, groups that suffer discrimination and exclusion due to race, sexual orientation, physical capacity, language and / or immigration status?

Yes

No

18. What is your highest level of studies completed?

No formal schooling

Primary school

High school

University

19. Are there any other comments that you would like to share with us about your experience with the project?
